Deer Moss Creek Commercial and Business Opportunities

A mixed-use development, the 1100-acre community concept includes a village center with shops, restaurants, and entertainment. The commercial area that will be accessed from Walt Spence Parkway, is envisioned to have a hotel, grocery store, gas station, bank, restaurants, stores, offices, and more.

A "light industrial" center in the northeast section of the property has the potential to have advanced manufacturing, light assembly, science and technology firms, defense contractors, etc. Ruckel Properties' goal is to help facilitate job creation for the area.

The property is bounded on the north by Eglin Air Force Base, on the east by Walt Spence Parkway, on the south by Rocky Bayou Drive, and the west by Forest Road. The property has a private, limited-use, grass airstrip on the western edge parallel to Forest Road.
